

Boulders

Cast concrete copies of natural boulders at a fraction of the weight.

PBN 1 36"w, 36"d, 10"h, 3" notch

PBN 2

43"w, 37"d, 10"h
6" notch

PBN 3 36" x 22" x 12"h, 5" notch

PBN 4
20"w, 23"d, 6"h,
4" notch

PBN 5
26"w, 20"d, 9"h,
5" notch

These 5 boulders are available individually although they are also part of various waterfall kits.

They can be ordered with or without the notched lip.

Boulders can be cut with a grinder type tool.

Standard colors are Limestone (off white with accents) and Sandstone (tan base with rust and reddish brown)

Fieldstone (darker browns) and gray granite are available on special request.

Boulders should be secured to a concrete deck or pad with construction adhesive. The lip that overhangs the pool should be sealed to prevent trapping water.

Two larger boulders (below) are available; they do not have a notch and are hollow.

Both Modular and Blue Ridge products can be secured to a fiberglass pool shell with silicone or epoxy type adhesives.

Expanding foam can be used to fill gaps.

PB 6 53" x 28", 22"h
280 lbs

PB 7 61" x 37", 21"h.
310 lbs
